The Cimino Terminal is a Park and Drive area, the bus terminus to reach the city center. Line 28C (not a direct route) connects it with the neighborhood of S. Vito.

Taranto is connected to the airports of Bari (about 100 km) and Brindisi (about 70 km) where several airlines operate, including low-cost ones.

From Bari airport to reach Taranto (railway station) there are some shuttles (COTRAP Line) with fixed daily schedules (about 5 trips a day at a cost of about €10). From Brindisi Airport the same solutions but arriving at the Cimino Terminal.

## TOURIST INFORMATION TARANTO

Taranto, located in Puglia on the Ionian Sea, is one of the oldest cities in Italy. Founded by the Spartans in the 8th century BC, it became one of the most powerful colonies of Magna Graecia.

Capital of the province of the same name in Puglia. It is the second largest city in the region by population and the third largest city in southern peninsular Italy. Currently the population is about 200,000 inhabitants. It is located in the Ionian Sea on the Gulf of Taranto.

It is nicknamed the city of the two seas, for its peculiar position between the Mar Grande and Mar Piccolo. The city is physically divided into three parts: the historic center of Taranto, the old city, is located on an island, connected at one end by the stone bridge that leads to the industrial district and at the other end of the island by the swing bridge that leads to Borgo Umbertino.

In the harbor of the Mar Grande, near the Cheradi Islands, in front of the city, a historic population of dolphins and other cetaceans lives and thrives; in the Mar Piccolo, mussel farming has been practiced for centuries on a large scale, especially mussels, whose products are known worldwide for their uniqueness.

Founded by the Spartans in the 8th century BC with the name of Taras, thanks to its strategic position in the center of the gulf of the same name, the fertility of its territory and trade, the city became one of the most important poleis of Magna Graecia. It is in fact defined as the capital of Magna Graecia. It was the birthplace of the intellectuals Archita, Aristoxenus, Livius Andronicus, Leonidas and Heraclides of Taranto as well as athletes whose exploits became famous throughout the Greek world, such as Icco and the so-called Athlete of Taranto whose remains are kept in the MARTA museum of Magna Graecia, unique in the world in which priceless finds are kept.

After Roman domination, the city came under Byzantine, Norman and Aragonese control, until it became an important military and industrial center in modern Italy.
